CREOSALUS DELIVERS FIRST SUCROMATE™ EQUINE PRODUCT

In Time for Upcoming Mare Breeding Season

First of its Kind Drug Developed and Manufactured in Kentucky

LOUISVILLE, KY – February 8, 2011. CreoSalus, Inc. announced its subsidiary Thorn BioScience shipped its first SucroMate™ Equine vials for the upcoming mare breeding season. SucroMate™ Equine regulates ovulation in mares of all breeds through a single injection allowing for timed ovulation and breeding for both naturally bred and artificially inseminated mares.

Co-Founder Barry Simon, DVM said, “We are pleased to introduce FDA approved SucroMate™ Equine for the 2011 breeding season. Owners and veterinarians can breed their mares confidently knowing that SucroMate™ Equine is delivering a stable, sterile, and consistent dose. Horsemen will no longer need to rely on compounded products that may not meet safety or efficacy specifications. SucroMate™ Equine is another step in improving the health of the Thoroughbred and other equine based industries.”

SucroMate™ Equine is distributed in the United States through partnership with Bioniche Life Sciences (TSX : BNC). Bioniche’s Animal Health division specializes in animal reproduction including embryo transfer, immunostimulants, and nutrition. SucroMate™ Equine is now available for veterinarians through distributors.

Thorn BioScience received FDA approval of SucroMate™ Equine in November 2010. SucroMate™ Equine is the first FDA approved drug of its kind developed and manufactured in Kentucky. SucroMate™ Equine is manufactured in CreoSalus’ Class 5 aseptic clean room under the FDA’s current Good Manufacturing Process (cGMP). This Class 5 clean room is the only one in Kentucky for commercial manufacturing of pharmaceuticals. SucroMate™ Equine utilizes DURECT Corporation’s (NASDAQ: DRRX) Saber™ technology.

About CreoSalus

CreoSalus is a privately held Louisville, Kentucky based life-sciences company with businesses specializing in the development and manufacturing of finished drugs (Thorn BioScience), human medical devices (Occam Design), and fine chemicals (Advanced ChemTech). Thorn BioScience’s products include SucroMate™ Porcine (under development) and FDA approved SucroMate™ Equine that regulate ovulation in sows and mares, respectively. CreoSalus is Latin for ‘creating good health.’
